Subject: Inviting Public Comments Regarding the Requested Transfer of A17007 from Canfor to Peak

Hi All,

To better inform the Minister regarding the breadth of the public interest for this requested tenure agreement transfer we have established a webform where citizens can submit comments. We invite you to share the url address below, which is information on our timber tenure transfers website and includes a link to the comment submission webform:

<https://www2.gov.bc.ca/gov/content/industry/forestry/forest-tenures/forest-tenure-administration/timber-tenure-transfer-disposition/public-interest-proposed-timber-tenure-dispositions>

There will not be an official communication from the Minister's Office regarding public engagement on this transfer. We will be providing the above link to local governments and community groups for their use on their public communication platforms to assist in ensuring that citizens in the area are made aware of this opportunity to provide comment. If you wish to communicate directly to any of your contacts, you're welcome to forward this email or provide the link through your own means of public communication. You are also free to send me any contact information for individuals or groups that you would like to inform and I can send them an email to communicate this opportunity.

The webform for submitting a comment will be available until 4:00 PM on February 19, 2021.

Any questions regarding the public submission process can be directed to me.

Regards,

Steve Baumber, MSc, RPF I Senior Timber Tenures Forester
